

THE GUIDE TO EGO MOWERS

If you're looking for a new mower, let the battery specialists lend a hand.

Packed with groundbreaking innovations, the award-winning EGO Power+ mower range features a wide selection of models, each powered by our revolutionary Arc Lithium 56V battery technology.

But which is right for your lawn? Our handy guide has everything you need to make the right decision.

FEATURES

Every EGO mower is different, but all are specially designed to ensure high levels of user comfort and unparalleled cutting performance. Features include:

FOLDS IN SECONDS
For convenient storage and easy cleaning

Please note: some features are not available on all models

ASSESSING YOUR SPACE

There are many factors to consider when selecting the perfect mower for you. Firstly, it is important to consider the type of terrain you will need to work with. Our range of mowers are specially designed to handle a variety of spaces.

There's narrower cutting capacities for smaller lawns, wider cutting capacities for larger open spaces, and even self-propelled models for sloped ground and heavier work loads. Simply check out the features below to understand what you'd need from your mower.

SMALL, TIGHT SPACES, OR CLOSE TO TREES

For smaller spaces and improved precision around obstacles, mowers with a smaller cutting capacity are ideal.

LESS ROOM TO WORK WITH?

Our compact 42cm model LM1700E is perfect for smaller spaces.

SLOPED GROUND

If you have a sloping garden, using a self-propelled mower takes the strain out of pushing the mower uphill.

FINISHES

EGO Power+ mowers come in two finishes: poly deck and steel.

BIGGER, OPEN SPACES

A mower with a wider cutting capacity will help you cover more ground in fewer passes. Opting for a bigger battery will increase run time, as will automatic cutting speed control. For a quick clean-up, a larger capacity bag can collect more grass and needs emptying less often.

LARGER LAWN?

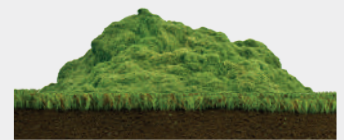

Try our 52cm model LM2120E-SP which makes even the biggest jobs feel small.

ADDITIONAL COMFORT

If comfort is a priority, poly deck models are the lightest option. Self-propelled mowers require less effort, and with an adjustable handle, you can decide on the most suitable height.

GRASS COLLECTION

There are 3 different ways that EGO Power+ mowers deal with cut grass. Great for lawns that aren't too thick, mulching redistributes grass particles and fertilising nutrients. Having a side discharge allows for quicker mowing through thick and long grass. Bag collection keeps lawns clear of any cuttings.

FINDING THE MOWER TO MATCH

Now you're familiar with how the space you work with affects your requirements, it's time to choose a model that will cover the ground you need to cut.

Check out our handy diagram to identify the size of the space you need to cover on a single charge, and therefore the mowers that are suitable for you.

With manual and self-propelled models, poly or steel finishes, and 42-52cm cutting capacities, use the table below to find the perfect mower to match your lawn.

	LM1700E	LM1900E-SP	LM2020E-SP	LM2120E-SP
CUTTING CAPACITY	42cm	47cm	50cm	52cm
SELF-PROPELLED SPEED	No	0.6-1.4m/s (2.2-5.0km/h)	0.6-1.4m/s (2.2-5.0km/h)	0.6-1.4m/s (2.2-5.0km/h)

*Run time may vary and depend on the battery used, charge level of battery, condition of grass, and user's operation technique.
**Automatic Variable Speed delivers optimal cutting speed to maximise battery run time whilst maintaining grass cutting performance.
¹Please note, mulching kits for models LM1700E and LM1900E-SP are available separate to purchase (ABP1710 and ABP1910).
